PROFILE

Javascript software engineer with 5 years of experience. A dedicated problem solver and expert skills in Javascript and supporting languages/libraries and frameworks that solve real world problems through code.
Eager to learn and always open to explore new things
Flexible person who can adapt quickly to changing circumstances

CAREER OBJECTIVE

Problem solver and strong communicator. Eager to prove my value and talent.
Motivated to advance and expand my skill set through challenging projects.
I enjoy working collaboratively, but can run projects independently.
Focused on developing scalable and well-documented software solutions
